Hesitation during the play of a hand is perfectly ethical so long as you don't overdo it. On the other hand, hesitation during the bidding is considered extremely bad form. It obviously reveals that the question has some tricky value or that there is some problem in it. This problem can be readily and accurately guessed by an expert partner. There is a classic bridge story involving Charlie Goren, one of America's top players. In a local tournament, several years ago Goren drew as his partner a somewhat inexpert lady. Charlie dealt and bid one club. The opponent on his left overcalled with one spade. The old lady hesitated and finally passed. Goren bid two clubs – which was promptly overcalled by two spades. This time the old lady paused even longer before passing. Goren finally got the contract for three clubs. When the old lady's hand went down, it contained little trick value. "My," remarked Goren. "That second hesitation certainly was an overbid"
